UNIT 1

- Did you know ?
- When you are doing a creative activity, you focus on what you're doing. You don't think about your daily life, or even what time it is ! This is often called "being in the zone".

• عندما تقوم بنشاط إبداعى، فإنك تركز على ما تفعله، لا تفكر فى حياتك اليومية، أو حتى ما هو الوقت ! هذا ما يسمى غالبًا "حالة التركيز الكامل".

Andy Goldsworthy

Andy Goldsworthy is a famous British **artist**[1] who works both with and in nature. He creates sculptures that are made with natural **materials**[2], such as flowers, leaves, snow, grass, and wood. To do this, he uses only his hands and simple tools. Then, instead of putting his works in a **gallery**[3], he presents them outdoors in their natural environment. Because they are in the wind, sun, and rain, the works are usually temporary. They give us a sense of **connection**[4] with the natural world and the way that it changes through the seasons. This is because the sculptures will change how they look according to each season. So for example, a sculpture made of snow will melt and disappear if the weather is not very cold.

Noha : I don't know. My favorite **activity**[2] is painting. I always feel happy when I'm painting. If I'm sad, I paint. Then I feel better.

Hesham : Hmm. If I paint, I don't feel happy. I'm not very good at it!

Noha : Yes, you are! Anyway, no one is bad at a creative project. You can do or make anything you like. There's no right or wrong!

Hesham : I prefer making things with my hands. I like **sculpture**[3] or junk modeling, but my favorite is pottery. I think it's really relaxing!

Noha : Oh, I don't agree. I don't like pottery because I don't like getting my hands **messy**[4]. I think it's really uncomfortable to have clay on my hands.

Hesham : But if you paint, you get paint on your hands.

Noha : Well, yes, I suppose you're right. Luckily, the paint disappears quickly when I wash them!

A Night of Colors

We stand together in the cold, black night,
The sky is dark and far away.
Everything is quiet and still, until - BANG!
The lights make the sky as bright as day.
Rockets shoot up into the air,
We shout and cheer, watching them fly.
Colors burn brilliantly against the black,
We see them dance happily through the sky.
The sound fills my ears, as each rocket takes off, Exploding noisily with flashes of light.
Beads of red, yellow, silver, and gold,
Are beautiful jewels in the black night.
With blasts so loud and rockets up high,
A colorful fire against the stars.
The sky shines brightly with light and color,
We hold our breath, looking out far.

Tip

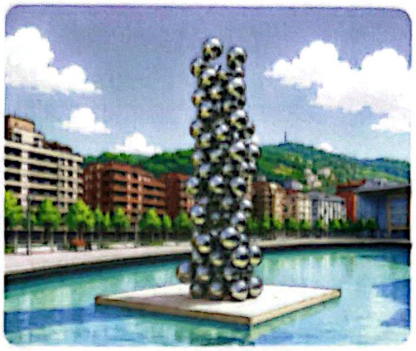

- **In a poem, the poet sometimes uses words or something that is not real to help the reader imagine the way something real looks. For example, the fireworks in the sky are not really jewels, but they are so beautiful that they look like jewels.**

في القصيدة، يستخدم الشاعر أحيانًا كلمات أو أشياء غير حقيقية ليساعد القارئ على تخيل شكل شيء حقيقي. على سبيل المثال ، الألعاب النارية في السماء ليست جواهر حقيقية لكنها من شدة جمالها تبدو كالجواهر .

Anish Kapoor's sculptures

Anish Kapoor is a **sculptor**[1]. He was born in India in 1954, and moved to London, UK, to study art in 1973. He likes to use new and interesting shapes and materials. Kapoor makes large pieces of art for public places all over the world.

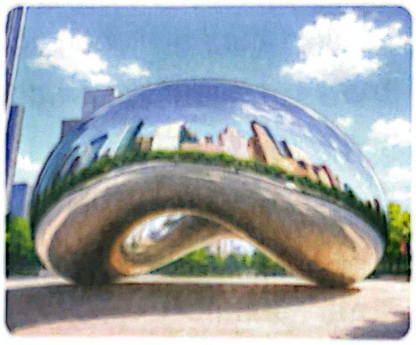

Tall Tree and the Eye

Tall Tree and the Eye is a famous **sculpture**[2] by Kapoor. You can see it outside the Guggenheim Museum in Bilbao, Spain.

This sculpture is about 13 meters tall. It is made of 73 metal balls.

The metal is very shiny, so when you look at Tall Tree and the Eye, you can see your own face many times. The balls look like bubbles which are **floating**[3]!

Cloud Gate

Kapoor is a great artist. He understands math and how materials work. This means he can make sculptures that will stay in place for a long time.

For example, in Tall Tree and the Eye, Kapoor uses metal because it is a strong material. It's very good for outdoor sculptures because bad weather doesn't damage it.

Over the years, Kapoor has made many other famous sculptures. Another famous Kapoor's sculpture is Cloud Gate, in Chicago, USA.

Cloud Gate is very high - people can walk under it! It is made of metal and is like a huge mirror, which reflects the sky, buildings, and the people around it. It is a very popular sight to visit in Chicago.

The Picture of Dorian Gray
by Oscar Wilde

The Beginning

Many years ago, a handsome young man named Dorian Gray lived in England. He was kind, and friendly, and he loved art.

One day, his friend Basil Hallward, a talented **artist**[1], painted his **portrait**[2]. While Basil was painting him, their friend Henry Wotton told Dorian that "youth and **beauty** [3] were the only important things in life". Basil warned Dorian not to believe Henry, but Dorian did not listen to Basil. Dorian became afraid of growing old and losing his beauty. When the portrait was finished, Dorian looked at it and said, "My portrait can get old, but I wish I could stay young forever."

[1] فنان
[2] لوحة لصورة شخصية
[3] جمال
[4] ندم

The middle

Over time, Dorian changed. He became selfish, cold, and cruel. One day, he noticed that the face in the portrait looked unkind, although his own face was still young and handsome. He realized that his wish had come true: he did not change, but his portrait changed a little whenever he did something bad or wrong.

Dorian became afraid that others would discover his secret. He hid the portrait in a locked room and said, "No one will ever look at this painting."

Years passed, and although Dorian did more bad things, he never grew older. Meanwhile, his face in the portrait became old, ugly, and frightening, showing the truth about his life.

The End

In the end, Dorian **regretted**[4] his actions and decided to become good again. He hoped the portrait would return to normal, but it was too late. The ugly portrait showed the poor choices, that he had made in his life.

When Dorian died, his body became old and ugly. At the same moment, the portrait changed back into the image of the young, handsome man that Basil had painted.

3 Read the following text and answer the questions.

Many years ago, a handsome young man named Dorian Gray lived in England. He was kind and friendly, and he loved art. His friend Basil Hallward, a talented artist, painted his portrait one day. Herry Wotton told Dorian that youth and beauty were the only important things in life. Dorian became afraid of growing old and losing his beauty, so he wished he could stay young forever. Over time, Dorian changed and became selfish and **cruel**. He noticed that the face in the portrait looked unkind, realizing his wish had come true. The portrait changed whenever he did something bad, but his own face was still young and handsome.

My pottery project by Amal

1

My class worked on a pottery project at school this week. We started with a lump of clay, and we chose what to make. I wanted to make a bowl.

2

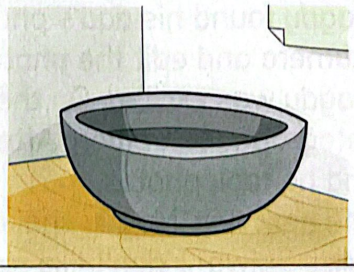

First, the teacher showed us how to use a pottery wheel. Then, it was our turn. We put on aprons over our clothes. When I put my clay on the wheel, it went fast. It was difficult, and I got messy.

3

When my bowl was finished, the teacher put it in a kiln. This is a special oven which gets very hot. It makes the clay hard and strong.

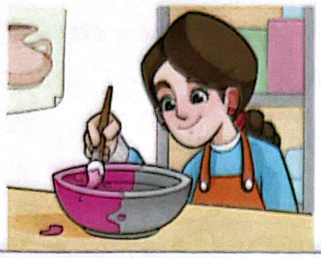

4

Finally, the bowl was ready and the teacher took it out. We waited for the bowl to be cool, and then I used special paint to decorate my bowl.

5

I painted it pink all over first, and waited for the paint to dry. Then I used different colors of paint to make circles all over it.

6

I really enjoyed making my bowl! When I finished my bowl, I gave it to my mom for her birthday. She loved it!

Behind the camera

Everybody was excited about the school show, except Magdy.

"I'm going to play the piano," said Waleed.

"The choir is going to sing beautiful songs," said Nesma.

"And I'm going to make **costumes**[1] for the choir," said Dalia.

"I've written a funny play!" said Samir.

Magdy was worried. "I can't **play**[2] an instrument or sing. What am I going to do?" he thought.

On the way home, Magdy saw an **advertisement**[3] for a photography **exhibition**[4] at the museum. A black and white photo showed a man playing the piano on stage.

"That's amazing," thought Magdy.

At home, Magdy started looking in cupboards.

"What are you doing?» asked Mom.

"Dad has a good camera, doesn't he?"

"Yes," said Mom, "It's in this box. He hasn't used it for a long time."

Magdy found his dad's photography books. Then he learned how to use the camera and edit the photos on the computer.

Magdy was excited. On the weekend, his mom and dad took him to a photography exhibition. After the exhibition, they walked around the city and he took photos.

The next day, Magdy spoke to his teacher.

"Miss Salwa, I don't like singing or acting, and I can't play an instrument, but I could be the photographer! I can take photographs while the class are performing. Then I can **edit**[5] the photos for our school website," said Magdy.

Miss Salwa smiled, "That's a great idea, Magdy!"

Magdy took lots of photos during the show.

The next week, Magdy's photos were on the school website.

"You're going to be a great photographer," said his dad.

Who does Samir help in the school show? AB

It was the day after the school show. Magdy's friend Samir was visiting his grandma.

"Hi, Grandma. I've come to visit you," said Samir.

"Hello, Samir," said Grandma. "How was the school show ? Were you in a play ?" "It was great, Grandma, but I wasn't in a play. Magdy and I don't like acting. Magdy was the photographer for the school show, but my job was better than that.
I helped Mr Ibrahim make the props," said Samir excitedly.

"What are props ?" asked Grandma.

"Props are the things that actors need on stage to make the play look real," said Samir. "If the play is about a family at home in the living room, you need some furniture - like a couch, a lamp, or some pictures for the wall. Sometimes we get the things we need from parents. But sometimes we make them!"

"You make them?" said Grandma, looking surprised.

"Yes, I love making things, Grandma. We use wood, cardboard, colored paper.. anything ! My teacher Mr Ibrahim is very good at making things and he shows me what to do," explained Samir.

"That sounds exciting, Samir. I'd like to see some of the things you made," said Grandma.

"That's easy," said Samir. "Magdy put his photos on the school website. I'll get my phone and I'll show you!"

III Writing Skill

Writing a report

Tip to write a report :

- Use sequencing words to order your ideas: First, Next, Then, and Finally.
  استخدم كلمات التتابع لترتيب أفكارك : أولًا، التالى، ثم وفى النهاية.
- We can use "when" to talk about the order in which things happen. Both parts of the sentence are in the same tense.
  يمكننا أن نستخدم "When" للحديث عن الترتيب الذى تحدث به الأشياء. كلا الجزئين من الجملة فى نفس الزمن.
- e.g : When my bowl was finished, my teacher put it in a kiln.
- Draw pictures to illustrate each stage of the report.
  ارسم صور لتوضيح كل مرحلة في التقرير.

3 Read the following text and answer the questions.

My class worked on a pottery project at school this week. We started with a lump of clay, and we chose what to make. I wanted to make a bowl.

First, the teacher showed us how to use a pottery wheel. Then it was our turn. We put on aprons over our clothes. When I put my clay on the wheel, it went fast. It was difficult, and I got **messy**. When my bowl was finished, the teacher put it in a kiln. This is a special oven which gets very hot. It makes the clay hard and strong.

Finally, the bowl was ready and the teacher took it out. We waited for the bowl to be cool, and then I used special paint to decorate my bowl.

My fantastic bedroom by Harry

We moved into a new apartment in London a month ago, and I'm so happy because I have a new bedroom !

I love my new room because it's very light and **comfortable**[1] . I share it with my brother, Kyle.

We have a long desk for our **PCs**[2] where we do our homework. It's much better than doing it in the living room ! There's too much noise there from our little sister and the TV !

When we finish our homework, we can play computer games or watch cartoons with our friends.

I **swap**[3] comic books with my friends once a week and we talk about them. I like reading them in bed.

I'm learning to play the violin at the moment, and I practice a lot. I'm not very good yet, so sometimes my brother doesn't like it! He's very sporty and plays a lot of volleyball, so he does **push-ups**[4] in our room. He often does 30 in the evening !

Kyle and I have a lot of the same friends. Now that we've moved, they come to our house and we spend time in our room.

My friend Austin is an amazing chess player. We're both in the school chess club. Chess is quite difficult for me, but Austin is helping me.

Kyle and I like board games. We play them with our friends in our bedroom and with our family in the living room !

My favorite thing about our bedroom is that we have **space**[5] for our hobbies and for our friends.

Amazing appliances

I think the blender is the best kitchen appliance ! If it's hot tomorrow, I'll make a smoothie with fruit and ice !

I use it for making milkshakes with my mom. My mom uses it to make delicious soups, too.

Karim

Did you know a Polish-American man called Stephen Poplawski invented the blender in 1922 ? He put a sharp blade in the bottom of a tall glass. When the blade turns, it chops the food. He added a small motor. The motor turned the blade, which blended the food together. He used his new invention to make milkshakes.

blender

Blenders are also useful in medicine. For example, Dr Jonas Salk was a famous scientist. In 1953, he used a blender to make a vaccine. His vaccine has saved millions of lives. People won't get sick if they have a vaccine.

Nowadays, the blender is a little different from the 1920s. There are blenders made of plastic, glass, and metal.
Do you have a blender at home ? Do you use your blender a lot, or a little? What would you do without your blender in the kitchen?

Demonstrate understanding of specific details.

III Language

The first conditional الحالة الشرطية الأولى

Usage : الاستخدام

We use the first conditional to talk about future situations.

• نستخدم الحالة الشرطية الأولى لنتحدث عن مواقف مستقبلية.

Formation : التكوين

To form it, we use "if" plus the present simple and "will" plus the infinitive :

• لتكوين الحالة الشرطية الأولى نستخدم "if" يليها زمن المضارع البسيط ثم "will" ثم مصدر الفعل :

- We use "can" plus infinitive to express ability.

• نستخدم "can" ثم مصدر الفعل للتعبير عن القدرة.

- We use "may" plus infinitive when we aren't sure.

• نستخدم "may" ثم مصدر الفعل عندما نكون غير متأكدين.

Statement الجملة الخبرية

If إذا / لو + present simple tense زمن المضارع البسيط , subject الفاعل + will ('ll) /can / may + will not (won't)/can't + (inf.) مصدر الفعل

Subject الفاعل + will ('ll)/can / may + will not (won't) /can't + inf. مصدر الفعل + if إذا / لو + present simple tense زمن المضارع البسيط

• لاحظ وضع comma [,] قبل بداية الجملة الثانية فى حالة وجود (If) فى البداية.

ex. - If it's hot tomorrow, I'll make a smoothie.
- People won't get sick if they have a vaccine.
- If she hurries, she may catch the train; I'm not sure.
- Dad can take you to school if you ask him now.

Ruby's day at school

Mom : Hi Ruby, how was your day ?

Ruby : Oh, hi Mom ! It was a strange day, actually. We had a **power outage**[1]! My class and I were looking at the **interactive whiteboard**[2], when suddenly all the information disappeared.

Mom : Really ? That is strange ! What did Miss Anderson do ?

Ruby : Well, first she got an **extension cable**[3] and tried a different **power socket**[4], but that wasn't working either.

Mom : Oh no ! So, there was no **electricity**[5]! What happened ?

Ruby : We couldn't do the lesson Miss Anderson planned. So she asked us all to sit in a circle and talk about why electricity is important in our lives.

Mom : Let me guess - everyone thought it was important for computer games !

Ruby : Ha ha! Actually, no. We all had lots of different ideas. It was a really interesting **discussion**[6].

Whose opinion do you agree with most ?

Morgan

In my opinion, electricity is most useful in our free time. I love my laptop ! I do my homework on it, then I play video games with my brother. I love to watch television with my grandma in the evening, too.

Tom

I know what you mean, but I think electricity is most important for lighting. I don't like the dark, and we need lights in the evening.

Sara

I don't agree. I think it's more important in the kitchen. We couldn't use our electric kettle without electricity, or our blender - or our refrigerator !

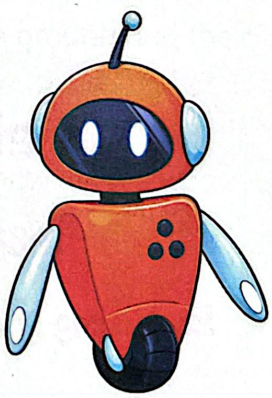

Lewis

What about transportation ?
Some people have electric cars. And bus stations and airports all need electricity, too.

The Day the Bills broke down !

It's the Year 2089, and life on Earth is sweet ! Every family has a Bill robot. The Bill robots do all the **chores**[1]. However, a year ago, something terrible happened.

The day started normally. In Australia , some Bills were ironing clothes. In Italy, some Bills were quietly making milkshakes, others were fixing cars. In Canada, the Bills were making sandwiches. But then, all over the world, the robots suddenly **broke down**[2]. They fell to the ground, and their lights went out.

One shocked family in Toronto tried to wake up their robot. "Bill!" said Mom, "What happened? We need our sandwiches !" Bill said nothing. Cody, the young son, started crying", "Who is going to iron my school pants ?" "I programmed Bill to fix my car and change the **battery**[3]. What am I going to do ?" Dad said.

Dad tried to learn how to fix his car, but it was too difficult. And he **certainly**[4] didn't understand how to change the car battery - that was very **complicated**[5]. A Trip That Took Twenty Years

Marco Polo was a boy of about seventeen when he was given his great chance. His father and uncle had just returned to their family in Venice after a long journey. They had been far from home for many years, and they talked about the **strange** and beautiful places in the East where no other Europeans had ever been before. They brought back gold and **jewels**. They could even speak different languages! Then came great news: the Polo brothers were going back, and they wanted young Marco to go with them.

"The trip will be very long," said his father. "Our friend, the great Kublai Khan, asked us to go back and we promised that we would return. This time we want you to see the **wonders** of the East with us."

And so it was that Marco Polo's journey began. During three years of travelling to reach China, he saw amazing sights. He met people who had different ways of living. Some spoke languages that he did not understand. He ate new kinds of food and learnt to kill wild animals.

The three Polos passed through forests, mountains, and deserts. But soon their animals died. They began to run out of food. Hunger and illness struck them.

At last, they reached the **court** of the Great Khan, ruler of the land we now call the continent of Asia. This was in the year 1275.

Kublai Khan had prepared a **celebration** for the Polos' return. He gave them new clothes and many expensive presents. The Great Khan also asked Marco to live in his court.

In fact, Marco Polo became one of Kublai Khan's best friends. He wrote notes about everything he saw and did. He learned to read, write, and speak new languages.

He traveled to the western and southern parts of Khan's country. He kept daily notes of the wonderful things he saw, and of his talks with the people. Later, he was able to help the Khan with his people.

He saw amazing bridges, beautiful crafts, and even paper made by the Chinese.

Twenty years passed before Marco Polo returned home with his father and uncle. He wrote a book about his travels.

Caring for your cat

How can I make my cat feel at home ?

Give your cat lots of **attention**[1] so it feels safe. You should **stroke**[2] it. This means that you should move your hand over its back, or under its chin - cats love this !

Where do cats like sleeping ?

They like a warm, comfortable bed, but sometimes they just sleep on the **couch**[3]! Don't wake it up - cats need to sleep for about 15 hours every day !

A cat sharpening its claws

What do cats eat ?

They like small meals at different times in the day. Cats shouldn't have much milk to drink. Milk is bad for them. Water is better.

What equipment[4] **does a cat need ?**

A cat needs a **scratch post**[5]. This is a strong wooden pole which the cat can **sharpen**[6] its claws on. Cats also like toys to play with. A **collar**[7] with the cat's name and address on it is a good idea. If your cat gets lost, somebody can bring it home to you.

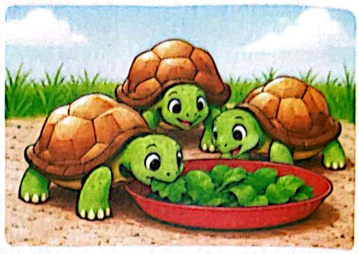

How often should cats go to the vet ?

Cats should go to the vet once a year for **vaccinations**[8]. These stop them from getting sick. If you look after your cat well, you'll have a new furry friend in your life !

Caring for your indoor plants

Where can I buy an indoor plant ?

You can buy indoor plants from supermarkets, florists, and garden centers. These are stores that sell many different plants. It might be best to buy from a garden center as the assistants know how to look after the plants and they can give you some useful advice. Make sure you know what your plant is called so you can find out more about it.

Where should I put my indoor plant ?

Some plants need to be in a warm, sunny place with a lot of light, while others prefer a cool place that isn't sunny. Look on the internet to find the best place for your plant. Most plants don't like you to move them. So, find the perfect place and leave it there.

Do plants need food ?

Yes ! The best time to feed your plant is spring and summer. Feed them with fertilizer. This is special plant food. Read the instructions carefully, because too much fertilizer can be bad for plants.

How often should I water the plant ?

Some plants don't need much water and others need more. You can check

Scanned with CamScanner

the internet for more information. If you don't know, it's better to give them too little water than too much.

How should I clean my indoor plant ?

Use a soft brush or cotton cloth to dust the leaves. This means that you clean dry dirt from the leaves. For plants with thicker leaves, spray them with water and this will keep them healthy.

Did you know ?

If you keep your plants happy and healthy, they will live for many years.

The special house

It was the summer vacation and Sameh was playing with his kitten in the living room. Suddenly, the kitten ran into a small hole in the wall! Sameh put his hand in the hole and tried to get it, but instead he pulled out some paper. It was very old. It was a message in a child's writing, Hello, I'm Monira ! I live here. Sameh felt very curious.

The next day, Sameh and his sister, Nadine, were feeling bored.

"Let's go up and look in the spare room," said Sameh.

There, they found some old boxes. Sameh looked in a box and found a little house, a doll and a birthday card : To Monira on your birthday, much love, Grandma. They ran downstairs. "Dad," said Sameh. "Who is Monira ?" Dad looked shocked. "Why did you ask that ?" he said.

"Look at this doll and this card!" replied Sameh.

"I don't believe it !" said Dad, "Let me tell you about the history of this house. It was built of bricks and stone in the 1950s.

My grandma – your great-grandmother – lived here with her mom, dad, and five brothers and sisters!"

"Do you think they were happy ?" asked Sameh.

"I think they were very happy, just like we are" said Dad.

"Is the house different now ?" asked Nadine.

"Not really," said Dad, "The walls are a different color, but that's all. I'm glad it hasn't changed much".

"But you still haven't told us who Monira is !" said Sameh.

"Monira was your great-grandmother - Grandad's mom ! " said Dad.

"The things that you found are from her childhood. I'm so happy we have them ! "

Did you know a Polish-American man called Stephen Poplawski invented the blender in 1922 ? He put a sharp blade in the bottom of a tall glass. When the blade turns, it chops the food. He added a small motor.

The motor turned the blade, which blended the food together. He used his new invention to make milkshakes.

Blenders are also useful in medicine. For example, Dr Jonas Salk was a famous scientist. In 1953, he used a blender to make a vaccine. His vaccine has saved millions of lives. People won't get sick if they have a vaccine.

شرح الحل

تفهم المعلومات الواردة جيدًا من إستنتاج معلومات أخرى مثلًا :

- ستيفن استخدم إختراعه الجريد (الخلاط) فى صناعة الحليب المخفوق فنستنتج من ذلك انه يحب الحليب المخفوق من المشروبات.
- استخدم دكتور جوناس أجهزة الخلاط فى صناعة اللقاح فنستنتج من ذلك انه مفيد فى الطب.

1. Do you think Stephen liked milkshakes ? Why ?
   - Yes, because he used his new invention to make milkshakes.
2. Why do you think the blenders are useful in medicine ?
   - Because Dr Jonas used them to make a vaccine.

Cats like a warm, comfortable bed but sometimes they just sleep on the couch ! Cats need to sleep for about 15 hours every day !

They like small meals at different times in the day. Cats shouldn't have much milk to drink. Milk is bad for them. Water is better. A cat needs a scratch post. This is a strong wooden pole which the cat can sharpen its claws on. Cats also like toys to play with. A collar with the cat's name and address on it is a good idea. If your cat gets lost, somebody can bring it home to you.

Classrooms of the world

Classrooms are not the same in every school. Here are two places where classrooms are a little different.

Classrooms on the roof!

In some countries, students have lessons in a garden on the roof of a building!

Green roofs bring **nature**[1] into a city, and help clean and cool the air. They help students learn how to grow plants and look after a garden. Students learn about plants and how they control pollution.

A roof garden in a city

Scanned with CamScanner

On some green roofs, students grow plants that you usually see in fields. Sometimes, this can include a dead tree! This is because dead wood is great for insects and birds. Green outdoor places help students learn about nature.

Classrooms on the move!

In Northern Siberia, in Russia some students have their lessons in **tents**[2] in the snow! Many people in Northern Siberia are **nomadic**[3]. This means they don't live in one place. They take their **reindeer**[4] to find food, so they travel in sleds across the snow and sleep in tents.

So how do the children get an **education**[5] ?

Some children go to **boarding school**[6], and they are away from their families for many months. They can't learn **traditional skills**[7], and they often forget their own language.

Other children go to nomadic school. This school travels with the families. The classrooms are tents, or **mobile**[8] rooms on wheels.

The children study school subjects like math, science, and computing. However, they also study their own language and traditional skills. The timetable is **flexible**[9], so they can help with the chores.

At nomadic school, the children can stay with their families and still get a good education.

How does Lilly go to school ?

Hi, my name's Lilly, and I go to middle school in San Francisco, USA. I started school in Kindergarten when I was six. Now I'm eleven, and I'm in Grade 6. I like my school. In Kindergarten, we played a lot, and there were always lots of toys in the classroom. We do more writing now in Grade 6, and we do more interesting subjects, like ICT. I like using computers!

Lilly, USA

We go to school from Monday to Friday. I don't have to wear a school uniform, but my clothes and shoes have to be neat. School starts at 8 a.m and finishes at 3 p.m. I often walk to school when it's dry and sunny. I sometimes get the bus with my friends. We have an hour for lunch, and I usually bring lunch from home. I eat in the cafeteria, or outside in summer.

III Language

Adverbs of frequency ظروف التكرار

always	usually	often	sometimes	never
●●●●	●●●○	●●○○	●○○○	○○○○

Usage : الاستخدام

- We can use **adverbs of frequency** with the present simple to say **how often** something happens.

يمكننا أن نستخدم ظروف التكرار مع زمن المضارع البسيط لتحديد عدد مرات تكرار حدوث شئ ما.

- They can help to describe habits or routines.

يمكن أن تساعد ظروف التكرار فى وصف العادات أو الأعمال الروتينية.

- Adverbs of frequency come before most verbs, but they come after verb to be.

تأتى ظروف التكرار قبل معظم الأفعال ولكن تأتى بعد "verb to be" فى الجملة.

ex. I **am never** late for school. - She **often walks** to school.

Sports club

Today we practiced inside for the first half hour. First, we had to run up and down the playground 20 times. Then we climbed a rope. That was really difficult. After that, we ran a 400-meter race outside. I love running but it makes me very tired. After that, we played a game for 15 minutes. It was great. My team won!

Photography club

Last week, our club went for a walk in the park. When our teacher pointed to an object, we took a photograph of it but we could only take one photo! So, we had to look carefully and decide where to stand. It was fun and it made me excited about the subject. When we compared our photos later, they were really different!

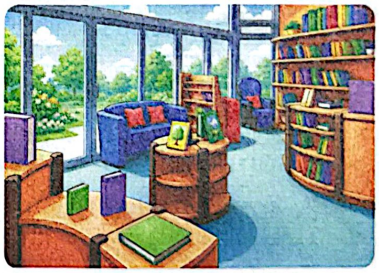

Nadia goes to music club where they sing songs and play instruments. They learn songs from all over the world. At the end of term, they have a concert for their parents.

Samer goes to cooking club. Every week, they make a meal from a different country. They take photos of their meals for a special recipe book. They can take the food home to eat with their families.

Malek goes to swimming club three times a week. It makes him healthy and strong. He sometimes does competitions, too.

Nader enjoys going to drama club. They learn plays and they act them for their parents. Sometimes they make special costumes for the actors to wear.

Green City School Open Day

Our Green Library

Welcome to our modern school, we are passionate about helping the environment.

We are the greenest school in the city!

New students and their families are welcome to join us for our Open Day on 25th May.

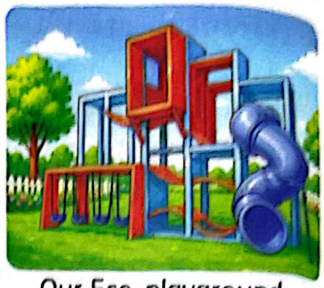

This is the schedule :

9 a.m Arrive at the school. There is a small car park, but we encourage you to walk, cycle, or come by bus! Show us you are passionate about helping the environment, too! Then the principal will give a presentation and tell you about the subjects, sports and environmentally friendly activities you can enjoy here. She will also explain how our school's green environment helps to develop happy and healthy children.

10 a.m Tour of the school buildings. We'll start in our new Green Library why is it green? Because all its electricity comes from solar panels! Then, we head to the Recycling Room, where we recycle paper, plastic, and other materials. Watch a demonstration about how we sort the waste from our classrooms so we can use the materials again.

Scanned with CamScanner

After that, come and see our Eco-playground. The climbing frame is made with strong recycled plastic and wood. There is also a nature trail through the woods that are next to the playground, where we can learn about the many plants, animals, and insects that live here.

Our Eco-playground

12 p.m Enjoy a healthy lunch in our School Garden, where we grow our own flowers, fruit, and vegetables. Some of these will be on your plate!

1 p.m This is your chance to ask the Green School students and teachers anything you want to know!

The bridge to school

Nancy lay awake, listening to the **storm**[1], and then she heard a **crash**[2].

"What was that?" asked her sister, Sarah.

"Oh, no! The bridge has **collapsed**[3]!" said Nancy.

The village where Nancy lived was small, and had **steep**[4] mountains all around it. The bridge over the river was the quickest way to get to school in town.

The bridge after the storm

"I've just listened to the radio," said Mom. "They said that the storm would stop soon".

Nancy's dad said that they couldn't go to school.

"What are we going to do ?" asked Nancy.

The next morning, a school bus drove into the **village**[5].

"Look, Nancy," said Sarah. "The bus is here!"

"The bus?" said Nancy. "But it's such a long way by road!"

"I know, but it's the only thing we can do," said Sarah.

The School at the Chalet
by Elinor M. Brent-Dyer

Many years ago, Madge Bettany decided to open a small school in the Austrian mountains. She chose a large wooden chalet for her school, near a beautiful lake. Her younger sister, Joey, became one of the first students.

At first, there were only a few students. At Chalet School, their school day was different from the one Joey knew in England. Lessons began early, and the students studied English, French, German, history, and music. When the weather was fine, they sometimes had nature lessons outside.

Joey quickly enjoyed life at the school. She joined the music group and often practiced songs with her classmates. Other students preferred hiking, swimming, or acting in school plays. Every week, they spent time preparing activities together.

One morning, the students planned a walk in the mountains. Their teacher warned them to stay together on the path. Joey was excited and walked ahead, but she soon realized that she could not see the others. Dark clouds appeared, and rain began to fall.

Joey stayed calm and followed the sound of a stream back towards the lake. Soon, her teacher and classmates found her. Joey was wet and tired, but she was safe.

After that day, she listened more carefully to her teacher's instructions. She also helped organize a school concert for Madge's birthday. The students sang, played music, and performed a short play.

The Chalet School became a happy place where students learned through lessons, activities, and adventures.

Joey discovered that school could teach useful knowledge, responsibility, confidence, teamwork, and respect for nature.

Title

Are school trips important ? by Paige , aged 12

Introduction

In my opinion, school trips are exciting learning experiences.

Main Ideas

First of all, we can learn a lot by visiting new places. When we learn about something in a classroom and then see it in real life, we understand it better.

Schoolchildren visiting a factory

In addition, school trips are often more interesting than only reading about things in books or watching videos.

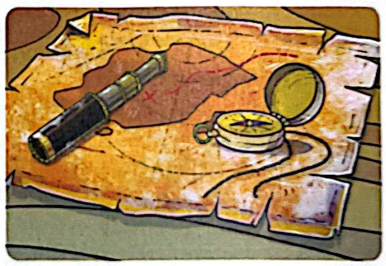

Finally, we can continue learning when we are back in the classroom after the school trip. We can do a project about what we saw on the trip.

Conclusion

To sum up, school trips are a very important part of our education.

I think we should try to go on one school trip every year.

Is studying the past important ? AB

I believe that studying the past helps us understand the present. In my opinion, it is important that we understand how past events have created the present.

First of all, we can learn a lot by studying the past. History helps us understand our society and other cultures because we learn about life in the past, important artists, scientists, and politicians. In addition, we learn about how and why life has changed over the years.

Some people say that the present is more interesting than the past, but I don't agree. History is interesting and exciting because it is full of great stories and interesting people. Finally, history helps us learn from past mistakes so that we don't repeat the same mistakes in the future.

In conclusion, I think that studying history is an important part of our education. History helps us learn from the past and it helps us understand why and how things change.

It was early and Nebsin didn't want to **get up**[1].

"Nebsin!" Dad called. "Time for school!"

Nebsin went into the kitchen.

"Why do I have to go to school when Babu plays all day!" he asked.

"Your brother will start school next year," said his mom smiling.

"I'm going to the **palace**[2], Nebsin," said Dad. "Let's walk together."

Nebsin's father was a **scribe**[3], who wrote about what happened at the **pharaoh's court**[4].

"Why did you want to be a scribe?" asked Nebsin.

"My father was a scribe, and his father was a scribe", said Dad.

Nebsin was **confused**[5]. He didn't know what job he wanted to do yet. Later that morning, Nebsin was listening to his teacher when suddenly, a boy started shouting.

"There's a **snake**[6]!" he shouted. A small, brown snake was moving across the floor. It **bit**[7] the boy's hand and he **screamed**[8].

"Quick, Nebsin!" the teacher said. "Get the doctor!"

Nebsin ran to the doctor's building. "Help, please! A snake bit our friend!" shouted Nebsin.

The doctor quickly picked up her bag and a roll of **papyrus**[9], and they ran to the school. "What kind of snake was it ?" she asked.

"It was small, and brown, with dark circles," said the boy.

"Good. That snake isn't **poisonous**[10]", she said.

She put some **herbs**[11] into a bottle of oil, and shook it. She poured this onto a cloth.

"Put this on your hand. It will hurt for a while but you won't get sick."

Nebsin was amazed. "I think I'd like to be a doctor one day," he thought.

Why we're all special by Reem

Our teacher, Mrs Mona, asked us, "How are we different to each other ?"

That's easy ! Asser is taller than everyone else. I'm short. I have green eyes and Asser has brown eyes. Waleed wears glasses and Injy wears **braces**[1] to make her teeth straight. Amal uses a **wheelchair**[2] because she cannot walk. Amina has a **hearing aid**[3] because she has

hearing difficulties. We have different families, too - I have three sisters, but my best friend Amal has two brothers !

Then, Mrs Mona asked us to tell our friend what makes them **special**[4]. I told Amal I love the way she helps me with math ! And Amal told me she loves the way I make her laugh.

Mrs Mona said, "What would it be like if we were all the **same**[5] ?"

"It would be **boring**[6]," said Sherif.

"Yes," said Sally, "it would be really boring."

"And imagine if everyone was good at the same things," said Mrs Mona.

"It wouldn't be very exciting," I said.

"It's good that everyone is different," said Mrs Mona. "Some of us have curly hair, and some have straight hair. Some of us are good at music, and others are good at sports." Everyone agreed.

"It's important to look after each other. We shouldn't be **unkind**[7] to someone because they're different. Our school is for everyone - we are all important," said Mrs Mona.

"What should we do if someone is being mean at school ?" asked Inji. "Someone was unkind to Tarek because he can't see well."

"Always tell me, or another teacher," said Mrs Mona.

"At school we help each other."

Today, our teacher invited an interesting person called Mr Edwards to come and talk to us in class. Mr Edwards told us about the best ways to communicate with people who have hearing difficulties.

First, he asked us what sounds we heard every day. We had lots of ideas. My friend Adam said he heard other people talking, and I said I heard our cat meowing in the morning !

Then, Mr Edwards asked what we thought would happen if we couldn't hear well. It really made us think ! Adam asked if we would only be able to hear loud noises. Mr Edwards said that he was right. It is difficult to hear quiet noises.

Next, Mr Edwards asked us what ways we communicate with each other. We thought there were lots of ways. I said that talking was a way of communicating. Adam said that using expressions, like smiling, was another. Alex said that writing messages on his phone was his favorite way to communicate.

Then, Mr Edwards told us about a really clever way to communicate! Can you guess what it is ?

III Language

Reported questions الأسئلة فى الكلام غير المباشر

When we report questions, we usually change the tense and word order, and remove the word do , does, or did when necessary.

1

Yes / No question → السؤال بـ "هل"

◀ يتم تحويل السؤال بـ «هل» كالآتى :

١. يتم استخدام فعل القول asked / wondered / wanted to know فى صيغة السؤال.

٢. يتم حذف الأقواس ونربط بـ "if / whether" بمعنى إذا / لو إذا كان السؤال بـ "هل".

٣. يتم تغيير الضمائر حسب المتكلم والمخاطب.

٤. تتغير الأزمنة من المضارع إلى الماضى كما سبق شرحه فى الجملة الخبرية.

ex. 1. "Have you ever been to Japan, Maha ?", asked Nora.
- Nora asked Maha if she had ever been to Japan.

2. "Do you hear lots of sounds outside ?"
- He asked us if we heard lots of sounds outside.

2

Wh-Question → السؤال بأداة استفهام

◀ يتم تحويل السؤال فى صيغة الكلام المباشر إلى غير مباشر كالآتى :

١. يتم استخدام فعل القول "asked / wondered / wanted to know" فى صيغة السؤال.

٢. تحذف الأقواس ونربط بنفس أداة الاستفهام الموجودة.

٣. بعد أداة الاستفهام نقوم بترتيب الجملة (الفاعل + الفعل .....).

٤. نحذف علامة الاستفهام ونضع نقطة فى نهاية الجملة بعد تحويل الضمائر والأزمنة.

ex. 1. - Laila asked , "Where is Ali ?".
- Laila asked where Ali was.

2. - Ashraf asked me , "When can we meet ?"
- Ashraf asked me (wanted to know) when we could meet.

لاحـظ أن :

• حذف الفعل المساعد (do/does) وتحويل الفعل الأساسى إلى الماضى.

ex. * Sarah asked me, "What do you want ?"
- Sarah asked me what I wanted.

Our teacher invited an interesting person to talk to us today. His name was Mr Edwards and he told us about the best ways to communicate with people with hearing difficulties. First, he asked us what sounds we heard every day. We had lots of ideas. My friend Adam said he heard other people talking. Then, Mr Edwards asked what we thought would happen if we couldn't hear well. It really made us think ! Adam asked if we would only be able to hear <u>loud</u> noises. Mr Edwards said that he was right. It is difficult to hear quiet noises. He asked us what ways we communicate with each other. I said that talking was a way of communicating. Adam said that using expressions, like smiling, was another. Alex said that writing messages on his phone was his favorite way to communicate.

The elephants and the mice

Many years ago, a herd of elephants lived in India. Their **leader**[1], the queen, was the kindest and best of the elephants. During the day, the elephants liked to swim in the lake.

Hundreds of mice lived in an old, empty village near the lake. Their leader, the king, was kind. The elephants and the mice lived happily together.

But, one day, the elephants changed their **route**[2] to the lake. Now they walked on a **path**[3] too close to the mice. Many elephants didn't see the mice. They walked on them and hurt them.

The mouse king decided to meet the elephant queen. When he explained the problem to her, she was **shocked**[4] and agreed to use a different route.

"Thank you for respecting our needs," said the mouse king, "One day, I hope we can help you if you need it."

The elephant queen smiled, but thought, "Why would **powerful**[5] animals like elephants need help from little mice ?"

A few weeks later, some **hunters**[6] left nets for the elephants. The next day, when the elephants went to the lake, they got caught in the nets. They couldn't move, and they **roared**[7] loudly ! The mice heard the noise and came running. They bit through the nets until the elephants could get out!

The next day, the elephant queen visited the mouse king and said, "Thank you so much! You saved our elephants from the hunters! You showed us that everyone, from the biggest to the smallest, can **make a difference**[8]."

The mouse king was the happiest and proudest mouse in the village.

The Hero of the Hudson

Flying is probably the safest way to travel. But what happens when something goes wrong ?

In 2009, a plane took off from LaGuardia airport in New York on a cold January afternoon. Just three minutes later, a flock of large birds hit both engines.

The engines stopped. At the time, the co-pilot, Jeff Skiles, was controlling the plane. He had only just finished training to fly this kind of plane. The main pilot, Sully Sullenberger, tried to restart the engines. When he couldn't do this, he took control of the plane.

Sully called air traffic control and told them that he wanted to return to LaGuardia airport. Then he decided that the engines did not have enough power to turn the plane around. Air traffic control told Sully to fly the plane to a nearer airport. They were very surprised by his reply: "We're going to be in the Hudson".

Scanned with CamScanner

The Hudson is the name of the river which runs through New York. The plane was flying above an enormous city and Sully was worried it would crash before it reached the airport.

Without power in the engines, Sully had to fly the plane like a glider towards the river.

The plane landed on the Hudson River at about 240 kilometres an hour. It landed so hard that many of the plane's windows cracked.

Amazingly, they had landed safely, but the plane started to fill with extremely cold water. Sully told the passengers to climb onto the plane's wings.

Just four minutes later, boats arrived to rescue the passengers. Seventy-eight people were injured, but incredibly, no one was seriously hurt.

Everyone said that Sully was a hero for landing the plane on water. This is not something that pilots are trained to do. His experience probably saved the lives of everyone on board. He was also praised for staying on the plane until every passenger was safe.

Amber's personal profile

Hi everybody!
How are things ?
My name's Amber. I'm eleven, and I live in New York. I go to school at Alex Modern School. It's a great school, and I have great friends.
I'm quite tall, and I have long brown hair. I wear braces. I have an older brother and an older sister, so they call me the baby of the family !
I'm keen on walking with my family and friends, and the countryside near where I live is really amazing. I'm into photography. I like taking photos of all the beautiful things I see in the countryside.
I also love listening to music from my country and all over the world.
As well as this, I'm really into sports. I play volleyball at my local club, and we have games about once a month.
On the weekend, I love going to the mall with my friends and family, and then I go to my grandma's to watch movies with her. We talk a lot, and she lives near my house, so it's easy for me to get home.
I think a lot about the future, and I think I'd like to be a dentist, like my dad. What about you ? What do you look like ? What are your hobbies ? Write and tell me about yourself !

Hana saves the day SB

Hana is a good friend who lives on my street. One day, after school, she called me.
"My new walker arrived. Do you want to come over and help me decorate it?"
Excited, I ran to her house. As she gets taller, Hana receives a new walker every year. When the new one arrives, we decorate it.
Hana's favorite color is green, so we painted it green and decorated it with stars and stickers. It looked awesome.

"What should we do now, Reem ?" asked Hana.

"I think we should go to the park," I said. We often go for a walk to the park after school. Hana's physiotherapist, Donia, says it's important for Hana to get fresh air and exercise her legs so they get stronger.

At the park, we met our friends. They said Hana's new walker looked great. Our new friend, Rasha, asked Hana why she needed a walker.

"Well," she said," when I was born, something happened to my brain and it works differently to some other people's. My dad calls it my special brain. The name for what I have is cerebral palsy."

"Can you do everything with the walker?" asked Rasha.

"No, for eating meals I have a special chair at home, and for going out in the car, I have a special seat - it's really comfortable."

Then we walked a little more with our friends. Hana was walking behind with Nadine, our other friend. Suddenly, a woman came running towards us, and she was crying.

"I can't see my little boy!" she said. "I turned around to get him a snack from my bag, and now I can't see him!"

"How old is your little boy ?" asked Rasha.

"Only one. He can't walk, he crawls along the ground."

So we all looked in the grass, and the snack bar, but we didn't see him. Then, I noticed there was a group of trees behind where the woman was sitting.

"Let's look over there!" I said. "And where's Hana ?"

Nobody knew. We all ran over to the trees, quite scared because it was near the road.

"Adam!" shouted the woman,and she stopped crying.

There was Adam, pulling himself up on Hana's walker, and Hana was talking to him quietly. His mom was so thankful that Hana found him. We were all so relieved and happy, and we had an ice cream to celebrate!

What is Adam's disability ? AB

It was Thursday afternoon and for Adam, this was the best day of the week. Adam went to basketball club after school on a Thursday. Today was special. His mom was waiting for him at the school entrance.

"I've brought you some water and a snack, Adam. You should eat something before you play," she said.

"Thanks, Mom, I forgot about eating," said Adam.

"That's because you're so excited," his mom said, smiling. "Come on, Adam, let's get in the car."

Fifteen minutes later, they arrived at the sports center. Adam saw his friend Brooke, who was waiting for him at the entrance.

"Hi, Adam. Are you excited about the game ?" he shouted.

"Hi, Brooke! Yes! It's going to be the most exciting game ever," Adam said. He waited for his mom as she took out his wheelchair from the back of the car.

"Look, Mom," said Adam. "There's Mr Baker, my physiotherapist. He has come to watch the game. Let's say hello."

Adam started playing wheelchair basketball six months ago and this was his first game as the captain of the team. The game started well and Adam's team was winning, until the last five minutes, when the other team scored two baskets. This was serious. There were three minutes until the end of the game. Then two minutes...

Suddenly, Colin caught the ball and threw it to Brooke. Brooke quickly moved past two players and threw the ball to Adam. There were 60 seconds to go ... Adam caught the ball and stopped his wheelchair. Thirty seconds .... he put his arms above his head. Twenty seconds ... then he threw the ball high in the air ... and it dropped into the middle of the basketball net ! Everyone cheered loudly !

Adam's team won the match! What a great day !

1 We are all special

We are all different from each other[1]. Some people are good at sports and some are good at music[2]. Everyone has special qualities[3]. Differences are important because they make life interesting[4]. If everyone were the same, life would be boring[5]. We can learn from each other and help each other[6]. Some of us have curly hair and some of us wear glasses[7]. Our differences make us special[8].

2 The elephants and the mice

A herd of elephants and hundreds of mice lived happily near a lake[9]. One day, the elephants changed their route and hurt many mice[10]. The mouse king explained the problem to the elephant queen, and she agreed to use a different route[11].

Later, some hunters left nets for the elephants[12]. The elephants got caught in the nets, but the mice bit through the nets and helped them get out[13]. The elephant queen thanked the mice because they saved the elephants from the hunters[14]. The story teaches us that everyone can make a difference[15].

بداية القصة

It was the end of the school day, and Asser put his pens and pencils away neatly. He looked out of the classroom window for his mom, but he couldn't see her.

Mrs Eman, his teacher, took the children outside. Then Asser saw his grandma waiting at the school gate. He smiled and waved at her.

Asser loved it when his grandma picked him up, and he hugged her.

"What a nice surprise! I didn't know you were coming today", he said.

"Your mom is busy, so I'm here today," she smiled. "Now, where's your sister ?"

They saw Mayar come out of her classroom.

Mayar's teacher, Mrs Azza, came to talk to Grandma.

Mrs Azza said, "Mayar has a new book. It has words that you can read to her. It also has words in Braille that she can read herself".

"Thank you!" said Grandma. "We can read this together this evening".

"Are we going to your house today, Grandma ?" asked Mayar.

"Yes, we are. Your mom and dad are busy. Should we make cookies ?"

"Yes, please!". said Asser and Mayar.

The children stayed at Grandma's house until the evening. Their parents arrived after dinner.

"Did you have a good time with Grandma today?" asked their mom.

"Yes, of course! And look at my new book from school!" said Mayar.

"It's great. Let's read it when we get home," said their dad.

The family all got in the car to go home. As Asser went to put the school bags in the open trunk, he noticed something strange. He saw his mom and dad's boots there, and they were muddy.

Have Mom and Dad been to a farm?" thought Asser.

Asser then got into the car, and they all went home.

Asser and Mayar went to their grandma's house every day that week. Asser was worried about the concert. He really wanted his mom and dad to go to the concert. He wanted them to hear him sing and play his guitar. Did they remember about it? They were so busy.

Later on, Asser was playing in Grandma's yard while Mayar listened to an audiobook. Asser's friend, Shady, came by.

"Do you want to come to the park with me and my dad?" asked Shady.
"Yes, but I have to ask Grandma," said Asser.

Asser went inside. "Grandma, can I go to the park with Shady and his dad, please?" he said.

"Yes, of course." replied Grandma.

Asser and Shady had fun in the park. When they got tired, they sat down by some thick bushes.

They were sitting quietly when they heard people talking.

"That sounds like your mom and dad" said Shady.

Asser looked around. It sounded like they were near - but where ?

Asser and Shady walked around the bushes. On the other side, there was a group of people working. Asser's parents were there, digging.

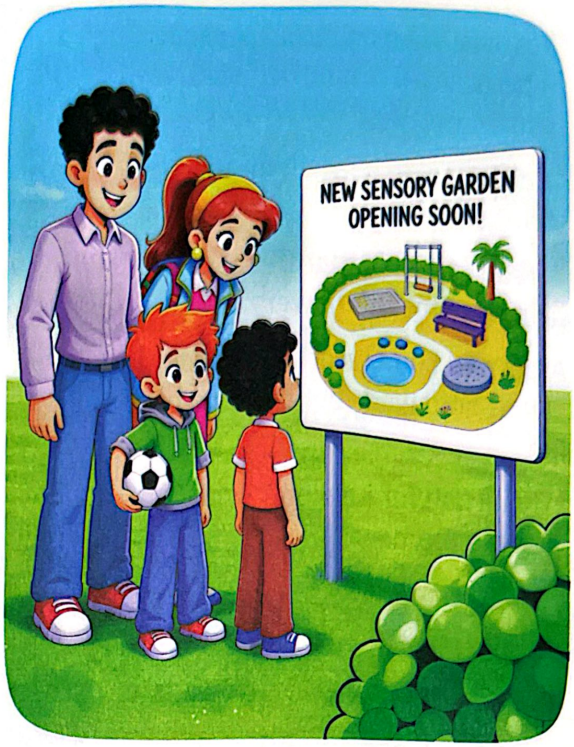

Asser ran over to his parents. "Asser! What are you doing here?" asked his dad.

Asser replied, "Shady and his dad invited me to come to the park. Asser looked down and saw his dad's muddy boots. "But what are you doing here?" he asked.

Asser's parents looked at each other and laughed. His dad put down his spade. They showed Asser and Shady a large information board with a plan on it. The plan showed lots of exciting new play equipment.

"We're making a playground with a sensory garden. It's for all the children in the neighborhood to enjoy", said Asser's mom.

"What's a sensory garden?" asked Shady.

"A sensory garden is a place where you can hear, see, and touch all kinds of interesting things,"said Asser's dad. There's a fountain, and there will be wind chimes for relaxing sounds. We're planting flowers, too," said Asser's mom. "They will smell beautiful."

This is awesome, "said Asser". Is this why you've been so busy?"

Scanned with CamScanner

"Yes, it is! We didn't tell you about it because it's a surprise!" said his dad.

"I'd love to do something to help, too!" said Asser.

"Great!" said his mom."You can help us plant the flowers".

Asser and Shady started helping. It was hard work, but the boys had fun.

"Thank you for helping!" said Asser's mom.

The next weekend, the children's mom said,"Mayar, we have a surprise!"

Let's all go to the park," said Mayar's dad.

Asser enjoyed showing Mayar around the sensory garden.

"I love it here! Thank you for helping us, Asser," said their mom,"and don't worry - we haven't forgotten your concert!"

- **The moral of the story :**

- It's important to think about everyone in your community.

The Poem

The Land of Counterpane

When I was sick and lay a-bed,
I had two pillows at my head,
And all my toys beside me lay
To keep me happy all the day.

And sometimes for an hour or so
I watched my leaden soldiers go,
With different uniforms and drills,
Among the bed-clothers, through the hills;

And sometimes sent my ships in fleets
All up and down among the sheets;
Or brought my trees and houses out,
And planted cities all about.

I was the giant great and still
That sits upon the pillow-hill,
And sees before him, dale and plain,
The pleasant land of counterpane.

by Robert Louis Stevenson

Let's explore the Poem

1 The main idea الفكرة الرئيسية

- The poem is about a sick boy who uses his imagination while staying in bed. He imagines his bed is a wonderful land with hills, cities, ships, and soldiers. His toys help him stay happy and have adventures.
- القصيدة تتحدث عن ولد مريض يستخدم خياله أثناء بقائه فى السرير. يتخيل أن سريره أرض رائعة فيها تلال ومدن وسفن وجنود. وتساعده ألعابه على الشعور بالسعادة وخوض مغامرات.

2 Rhyme القافية

• The last word of a line in poem rhymes with the last word in another line.

• تتطابق الكلمة الأخيرة فى بيت من أبيات القصيدة مع الكلمة الأخيرة فى بيت آخر.

* a - bed **rhymes with** head
* lay **rhymes with** day
* so **rhymes with** go
* drills **rhymes with** hills
* fleets **rhymes with** sheets
* out **rhymes with** about
* still **rhymes with** hill
* plain **rhymes with** counterpane

كلمة a - bed تتناغم مع head أى تنتهى بنفس الصوت

3 A regular rhyming scheme نظام (نمط) القافية المنتظم

• A rhyming scheme in a poem is regular if it has the same pattern in all of the poem. If the pattern is different, the poem doesn't have a regular rhyming scheme.

يكون نظام القافية فى القصيدة منتظمًا إذا كان نمطه ثابتًا فى جميع أبياتها. أما إذا اختلف النمط، فلا يكون نظام القافية منتظمًا.

In "The Land of Counterpane" Poem, rhyming scheme is regular ⟶ AA BB

نمط القافية فى القصيدة منتظم

* لأن كل سطرين متتاليين ينتهيان بكلمتين لهما نفس القافية.

4 Imagery التصوير الشعرى

• Imagery in a poem creates pictures in the reader's mind.

• يخلق التصوير الشعرى فى القصيدة صورًا ذهنية لدى القارئ.

• The poet uses words to help us imagine pictures in our mind.

• يستخدم الشاعر كلمات تساعدنا على تخيل صور فى أذهاننا.

Examples from the poem :

* "leaden soldiers"
* "ships in fleets"
* "trees and houses"
* "planted cities"
* "pillow-hill"
* "dale and plain"

These words help us imagine the boy's bed as a magical land full of adventures.

تساعدنا هذه الكلمات على تخيل سرير الطفل كأنه أرض سحرية مليئة بالمغامرات.

The Poem

All Things Bright and Beautiful

All things bright and beautiful,
All creatures great and small,
All things wise and wonderful,
The Lord God made them all.

Each little flower that opens,
Each little bird that sings,
He made their glowing colors,
He made their tiny wings.

The purple-headed mountain,
The river running by,
The sunset, and the morning,
That brightens up the sky;

The cold wind in the winter,
The pleasant summer sun,
The ripe fruits in the garden,
He made them every one.
