Dr. Mostafa El-Sayed is a brilliant Egyptian scientist! He was born in Egypt in 1933 and had a great love for learning from a young age. He studied at Ain Shams University in Cairo before going to the United States to continue his scientific research. Dr. El-Sayed became a global expert in chemistry and nanoscience. Nanoscience is the study of very tiny things - much smaller than a human hair. One of his most important discoveries is called El-Sayed's Rule, a scientific idea that was named after him. One of his biggest achievements is his work with tiny gold particles. He found out how these "gold nanoparticles" can be used to help doctors detect and treat some types of cancer.
